USAGE

Use biocides safely. Read the label and product information before use.

Dose: 1 spray of 200 ml is sufficient for: an area of 600 m³ against flies, mosquitoes, moths and wasps. an area of 300 m³ against fleas, beetles and silverfish, an area of 100 m³ against cockroaches.

Method of application: close doors and windows. Place the can in the middle of the room and never in direct contact with the ground surface (preferably on a piece of cardboard of 40 x 40 cm). Remove the seal ring. Turn the "One Shot" valve fully down until a powerful mist escapes. Leave the room and keep it closed for min. 4 hours. Then aerate well for min. 1 hour before putting the room back into use. The application and ventilation of the lo-cal must be carried out by the same person. Zeroxx® One Shot has no after-effects. If necessary, repeat the application.

Notes: for treatment of small areas, the automatic draining can be interrupted by turning the valve back up (fractional application). The total emptying time of a 200 ml aerosol is about 1.5 minutes. Contains Avoid that the spray can get on plastics, e.g. computer screens, plexiglass, CDs, etc.
