- This product is not suitable for sale and use in the Netherlands

pH 3,5
Cleaning Power Powerful

USAGE

Use biocidal products with caution. Read the label and the information relating to the product before use.

- First clean contaminated surfaces thoroughly with a suitable cleaning agent and rinse well with water.
- Spray Perodes directly on the surfaces to be disinfected and allow to act for 5 minutes for bactericidal, fungicidal, levuricidal and virucidal activity against enveloped viruses. Allow to act for 60 minutes for mycobactericidal and full virucidal action. Use sufficient liquid so that the surfaces remain wet during the exposure time.
- Then dry with a clean cloth.
- Rinsing is only necessary if the surface comes into contact with food.

Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. BOMA is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.
