

Crawling and flying insect spray can - 400 ml (BE-REG-02342, 23/09/L-000)

GENERAL

Insecticide for crawling and flying insects

- Quick and long-lasting effect
- Approval number: Belgium BE-REG-02342, Luxembourg 23/09/L-000
- This product is not suitable for sale and use in the Netherlands

USAGE

Use biocidal products with caution. Read the label and the information relating to the product before use.

Against crawling insects:

spray directly the places where the pests occur. Also treat the places where insects regularly stay (cracks, crevices, behind skirting boards, etc.). If the shelters are difficult to reach (eg wasp nests), it is sufficient to open the nest or spray the entrance opening. For the treatment against fleas, the entire floor surface should be sprayed. The product has a long after-effect. Therefore, do not wash the treated surfaces.

Note: When applying to valuable materials and materials always perform a preliminary test.

Against flying insects:

Dose: spray the product for 1 to 2 seconds per 10 m³ space.

Application method: close doors and windows. Then spray the product from the center of the room into the 4 top corners. Keep the area tightly closed for 10 minutes after treatment. Then ventilate thoroughly.

Hazard statements:

H222 - Extremely flammable aerosol

H229 - Pressurised container: May burst if heated

H410 - Very toxic to aquatic life with long lasting effects

Crawling and flying insect spray can - 400 ml (BE-REG-02342, 23/09/L-000)

TECHNICAL SPECIFICATIONS

Dimensions product (LxHxW) 5.8 x 25.1 x 5.8 cm

LOGISTIC DATA

Product

Article	260040
Unit	Spray
Dimensions	5.8 x 25.1 x 5.8 cm
Gross weight	360 g
Net weight	345 g
EAN code	5412037094276

Packing

Quantity per packing	12
Dimensions	23.5 x 26.7 x 18.2 cm
Gross weight	4320 g
EAN code	15412037094273
