BOMA MULTIWASH PRO

Flexible scrubber dryer

The **BOMA MultiWash PRO** is a multifunctional scrubber dryer with passive suction. Thanks to its dual-brush action, the machine cleans deep into the pores of the surface using its own weight. This results in excellent cleaning performance and ergonomic operation. The machine's low weight, combined with the optional transport trolley, makes it easy to move the unit between different locations.

The MultiWash PRO is also suitable for foaming products thanks to water recovery without a vacuum motor.

Carpet, stone carpet, ceramic tiles and even escalators: no surface poses a problem for the MultiWash PRO. The brushes can be changed without tools, allowing them to be replaced in just a few seconds. The dirty-water tank is removable, making it easy to empty. Good access to all parts ensures that this machine delivers perfect results every time.

BOMA MULTIWASH PRO

Easy to use, manoeuvrable and easy to maintain.

Suitable for all floor types: carpets, entrance mats, hard floors and escalators.

4-litre solution tank for increased productivity.

Suitable for noise-sensitive environments due to the absence of a vacuum motor.

Counter-rotating cylindrical brushes scrub and remove dirt efficiently.

Wash, scrub and dry in a single pass, allowing floors to be walked on again within seconds.
